SUMMARY

- Detail-oriented and creative Full Stack Web Developer with hands-on experience building scalable web applications using React.js, Next.js, Django, and Django REST Framework. Skilled in frontend-backend integration, responsive design, and payment gateway setup (PayPal, Stripe, Flutterwave). Strong at problem-solving and debugging, leveraging AI tools like ChatGPT for rapid development and continuous learning.

Skills

- **Frontend Skills:** HTML5, CSS3, JavaScript (ES6+), React.js, Next.js (App Router), Tailwind CSS, Sass/SCSS, Responsive Design, Axios, Git & GitHub

- **Backend Skills:** HTML5, CSS3, JavaScript (Es6+), React.js, Next.js (App Router), Tailwind CSS, Sass/SCSS, Responsive Design, Axios, Git & GitHub

- **Full Stack Integration:** React/Next.js + Django APIs, CRUD Operations, JSON Handling, State Management (React Hooks), Async Requests, Error Handling,Context Api.

- **Payment Integration:** PayPal, Stripe, Flutterwave integration

Tools and Platform

- Tools & Platforms:VS Code, Ubuntu & Windows OS, CLI, npm, pip, venv, Git, GitHub, AI-assisted Development (ChatGPT)

Projects

- **Fullstack Blog Platform** – React.js, Next.js, Tailwind CSS, Django - REST - Framework Designed and developed a fully functional blog application with post creation, editing, and deletion features. Integrated dynamic routing using Next.js App Router and styled it using Tailwind CSS for a modern UI. Built a secure backend with Django REST Framework, including custom user models and API endpoints.
  - -Features : CRUD operations, API integration, state management, form handling, authentication
  - -Highlights : Solved axios PUT/POST issues, structured JSON data communication between backend and frontend.

- **E-Commerce Store** – React, Django, Stripe, FlutterwaveBuilt a fully integrated online store with shopping cart, checkout,and payment gateways (Stripe & Flutterwave). Customized product display, order management, and payment flow with full frontend-backend connectivity.
  - -Features : Cart system, real-time total calculation, payment processing, responsive
  - -UIHighlights : Integrated multiple payment options, tackled cart state logic, optimized checkout UX.

- **Admin Dashboard** – Next.js + Django APIDeveloped a personal admin dashboard with real-time data fetched from Django APIs. Enabled data visualization, user management, and notification logic. Styled with Tailwind CSS and responsive grid layouts.
  - -Features : API connection, secure admin login, dashboard analytics
  - -Highlights : Demonstrated fullstack synchronization and frontend conditionals with backend data.

- **YouTube HTML Tutorial Channel** – "CodemantAcademy"Created a YouTube channel teaching beginners HTML using animated visuals and AI-generated voiceovers. Designed scripts, visuals, and engaging delivery style to simplif web development for first-time learners.
  - - Tools Used : VideoScribe, AI voice tools, YouTube Studio
  - - Highlights : Combined tech education with content creation, branding, and soft skill development.

Experience

Freelance Full Stack Web Developer Self-Employed – Remote│Jan 2025 – Present Created and published professional gig services on Fiverr offering web development solutions using React.js, Next.js, Django, and REST APIs. Designed project templates, built demo applications, and prepared to deliver scalable solutions to clients.
• Built reusable frontend components and API-integrated demo projects• Set up secure authentication and payment logic using Stripe and Flutterwave • Managed client communications, proposals, and revisions professionally• Continuously improved personalbrand and offerings to attract potential clients

Education

- **Metallurgical Training Institute Onitsha,NIgeria:.**
  - - Computer Enginnering(ND Certificate)
