PROJECT EXPERIENCE

Airbnb Clone (Full-Stack Web Application)

Freelancer(self employed)

2026

- Built a scalable full-stack rental platform using Django, DRF, and Next.js
- Implemented JWT authentication and role-based access control for landlords and tenants
- Developed complete property listing system with create, update, delete, and image upload functionality
- Designed and implemented advanced search, filtering, and booking/reservation system
- Built real-time chat system using WebSockets (Django Channels) for landlord-tenant communication
- Created RESTful APIs and connected frontend via Axios for seamless data flow
- Developed responsive UI with Tailwind CSS
- Containerized backend with Docker for consistent development and production environments
- Optimized performance for production (SSR, dynamic rendering, suspense) and ensured secure API communication

E-Learning Management System

- Developed full backend APIs using Django and Django REST Framework for course management, user enrollment, and progress tracking
- Integrated secure payment gateway for course purchases and subscriptions
- Implemented user authentication, role-based access (students, instructors, admins), and progress dashboards
- Containerized the entire application with Docker for consistent development and deployment
- Built responsive frontend interface to deliver smooth learning experience

E-Commerce Application

- Built a full-featured e-commerce platform with product catalog, shopping cart, and checkout flow using Django and React/Next.js
- Implemented user authentication and Integrated multiple payment gateways including PayPal, and Flutterwave for transactions
- Developed responsive and mobile-friendly UI with Tailwind CSS

SKILLS

- Backend: Django, Django REST Framework, REST APIs, JWT Authentication
- Frontend: React.js, Next.js, Tailwind CSS, Axios
- Realtime & Async: WebSockets, Django Channels, Celery, Redis
- Database/DevOps: PostgreSQL, MySQL, Docker, Linux (Ubuntu), Git, GitHub,
- Deployment (Render, Netlify)

EDUCATION

Metallurgical Training Institute, Onitsha

Computer Engineering

2022
